

Antelope Memorial Hospital

Healing Body, Mind and Spirit

MEDICAL LAB TECHNOLOGIST

This position located in Neligh, Nebraska requires that the person independently perform all laboratory procedures in the area of assignment in accordance with Hospital policy and procedures and current applicable federal, state and local standards, guidelines and regulations, as directed by Lab Supervisor. Perform all tests and examinations in all areas of clinical pathology to obtain data for use in diagnosis and treatment of disease and chart test results to ensure variations in results are within acceptable quality control ranges. Manage and operate laboratory equipment safely and correctly, following standard precautions, and perform necessary and preventive maintenance to ensure test quality. Report critical lab values to patient care floor and/or physician. Maintain accurate laboratory records for tests performed. Assist in Quality Assurance program and ensure necessary quality control procedures performed. Consult with other departments, as appropriate, to collaborate in patient care and performance improvement activities and lead, train, and direct personnel as required. Take call rotation for 24-hour lab coverage, as needed. Requires Bachelor of Science degree, or equivalent, in Medical Technology or closely related field, certification as a Medical Technologist (ASCP certification preferred), with two years of prior laboratory experience. 40 hours per week. Send resume to Megan Becklun, Antelope Memorial Hospital, 102 West 9th Street, Neligh, NE 68756.
